REACH requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight.

The ECHA announced on **June 14th, 2023** an updated list of the candidate **235** SVHC chemicals.

Based on the material content certifications provided by BrainPad's suppliers, none of these substances are present in the materials we use in our products, including packing and shipping materials. Therefore, BrainPad's products do not contain any of these SVHC in excess of 0.1% by weight.

BrainPad will continue to comply with REACH requirements and notify customers of any change in article content.

Our statements in this letter regarding RoHS, REACH compliance and lead content do not extend to, or apply to any product subjected to unintended contamination, misuse, neglect, accident, improper installation, or to use in violation of instructions furnished by BrainPad.

BrainPad's sole liability for incorrectly certifying a product shall be either replacement of the BrainPad's product or, alternatively and in the sole discretion of GHI Electronics', return of the purchase price paid for the relevant GHI Electronics' product.
